

VERSAKEY™

POS Keyboard

with MagStripe Reader and/or Smart Card Reader

CE

Versatile, full function Keyboard.

ID TECH's VersaKey features the enhanced 105/106 keys layout maximizing the user's productivity. The included MagStripe reader with many country specific layouts provides added flexibility.

Versatile MagStripe Reader.

VersaKey's integrated MagStripe reader is developed with configurability in mind. Reader output can be transformed to fit your specific application with the included configuration software, such as the format of the output or the selection of specific tracks on the ISO 7811 compliant cards.

Intelligent Interface Options.

VersaKey either comes in USB or PS/2 depending on the user's needs. For added convenience, the USB version also comes with a USB Hub. Whether it's the PS/2 or the USB version, the communication is shared between the keyboard and the MagStripe reader meaning a reduction of cabling for the user.

Durable Keyboard and Card Reader Combination.

VersaKey is built with quality. The unit is proven to endure more than 10 million key operations and 1 million swipes. Standard warranty of 3 years provides confidence that the unit is built to last.
